Corner

Adapter

Layout Diagram

Step 1.

Join all of the the extra-large elements together to form the basic platform.

Step 2.

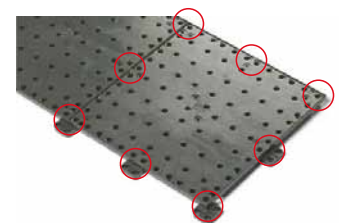

Add the white adapters where necessary along the 2 outside edges of the PromoDek platform,

Step 4. (Optional)

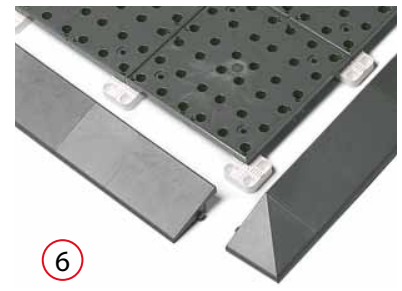

When placing heavy objects on the PromoDek platform, it is recommended to fasten the complete platform together with screws at all of the connecting points.

Screw size: 3,9 x 25/18 mm

Step 5.

Connect the frames and corners by gently twisting and clicking them together. Not not force or bend the frames once they are connected.

Step 7.

Once the platform is assembled, you can add the graphics and then the transparent inlays.

IMPORTANT:

Do not use a wet mop to clean the PromoDek surface. Use only a non-aggressive cleaning spray and a clean cloth.
